# Performance Options

## TORREFIED

### PREMIUM EXTERIOR WOOD DOORS

#### Unlimited Possibilities. Unlimited Designs.

The Torrefied Series is available in each of Lemieux's 10,000+ design options - and our 4/0 maximum widths and 8/0 heights are fully guaranteed, with available matching exterior jambs, brickmoulding and T-astragals.

#### A 20-Year Warranty That's as Durable as Time

Every Torrefied Series exterior wood door carries a 20-year guarantee against warping, twisting, rotting or delamination.

### Resists Warping, Twisting, Rotting, & Delamination.

#### Tested to The Extreme

We stop at nothing to design a better door. In fact, we have been subjecting our test doors to a daily deluge of abuse since October 2010 - and we're still waiting for the twisting, warping or rotting to show.

#### It's Over With Overhangs

This may be the first time a door of comparable quality can be installed without the usual overhang requirements. A door built to face up to the elements; direct sunlight and extreme heat and cold. What's more it can be stained or painted in dark tints. For the 20-year warranty to be honored, all six sides of the door must be sealed and maintained.

#### Chemical Free Technology

Torrefication is an all-natural green process whereby wood is heated over time in order to eliminate its tendency to rot. It also makes wood far more structurally stable, and highly resistant to heat, cold, and moisture.

## LVL CORE TECHNOLOGY

### BEST PRICE WITH PERFORMANCE

Laminated Veneer Lumber (LVL). LVL derives its strength from an impressive number of tightly bonded wood veneers, glued together layer upon layer, forming a solid tension-resistant core. Since the layers of veneer are arranged on edge, our LVL core withstands all tendency to warp and twist. Available in all species, panels, glasses and design.

## WOOD CORE

### COST EFFECTIVE

Our wood-core doors carry with them all of those qualities wood is renowned for - strength, beauty, flexibility, and one that's sure to please your bottom line. Economy. It's probably the most competitively priced option available with a quality-to-price ratio that's nothing short of enviable.

## FIRE RATING

### HIGH PERFORMANCE SOLID WOOD

Masonite carries a full line of fire-rated doors and jambs. They range from 20 (negative and positive), 60, and 90-minute-rated models, in sizes up to 4/0 width and 8/0 height, and are available in a range of custom sizes and designs, with either a primed paint finish, or a choice of 15 different species of stain grade.

Benefit from the advantages of using a single source for all your fire-rated door requirements. Our doors and jambs fit with a quality and durability nothing short of enviable. It's no longer a choice between form and function, because Masonite's fire-rated door products afford your clients the peace of mind they need, and the great looks they want.
